

MRV-7 RIDGE VENTING SYSTEM

The superior solution to attic ventilation

MRV-7 is an effective and energy efficient attic venting system designed to last as long as your roof and to help extend the life of your roofing system.

Available in a variety of colors

Benefits of MRV-7

- * Saves you money
- * Lowers cooling costs
- * Helps to extend roof life
- * Reduces moisture build up
- * 50 Year Warranty
- * Silent operation
- * Class "A"

Installing MRV ridge vent stops the build up of heat and moisture in your attic and vaulted ceilings that cause premature wood deterioration and roof failure.

"We have installed the MRV ridge vent system on numerous houses over the past 4 years. Our clients have been extremely happy with the effectiveness in keeping thier attics and homes cooler, and saving money on cooling cost.

Frank P. FMP Construction

"My passion is rebuilding cars. In the summer my garage would get unbearably hot, after installing the MRV ridge vent system on my house, my garage is 25 to 30% cooler than before." John M. Morgan Hill, Calif.
